

REF 26101301

BULLETIN – REMOVAL OF BOTH HANDS FROM THE STEERING WHEEL

Dear Competitors/Entrants,

This Bulletin serves as a reminder that Drivers are charged with maintaining proper and effective control of their karts at all times while driving on circuit.

Removing both hands from the steering wheel, whether in celebration or for any other reason, poses an unnecessary risk to Drivers and Officials, and is strictly prohibited. The completion of a race or session does not remove the Driver's responsibility to maintain control of the kart until it has come to a complete stop in an authorised area.

It is recognised that Drivers may wish to outwardly celebrate a performance or result at, or shortly after, the conclusion of a race or session. However, Drivers must ensure that any celebratory gesture does not impair their ability to steer the kart appropriately or respond immediately to changing track conditions.

At least one hand must remain firmly and securely on the steering wheel at all times while the kart is in motion.

EMSO has imposed the following penalty structure to address breaches of the above:

First offence: Official Reprimand

Second offence: AED 1000 fine

Third offence: AED 1000 fine + 5 sec penalty

Fourth (and subsequent) offence(s): AED 1000 fine + additional sporting penalty at the Steward's discretion

All fines imposed shall be payable by the Competitor in accordance with Article 12.8.1 of the ISC. Any delay in making payment may entail Suspension during the period the fine remains unpaid (ISC Art 12.8.2).

Competitors are expected to exercise sound judgement and celebrate responsibly, with due regard for their own safety and that of all other participants and Officials.

Yours,

GUY SHEFFIELD
CHAMPIONSHIP DIRECTOR
UAE ROTAX MAX CHALLENGE
